

BIO – Dave Hotz, The Wren Unit 303

Businessman, Inventor, Entrepreneur

Email: dave@dockrealty.com Phone: (573) 374-8849

I would like to serve on the board of The Wren at Vail and represent the interest of Timeshare and Wholly Owned units to make sure we are well positioned to meet future challenges and capitalize on growth opportunities.

I have been a multi-unit timeshare owner at The Wren for over four years including the owner of a fully owned unit for over two years. I am very fortunate that my businesses allow me to spend a lot of time at The Wren throughout the year. I was able to spend 43 days on the slopes last season. The last two years I have spent about one week a month on property with the exceptions of the renovation months. When not in Vail we reside at The Lake of The Ozarks in Missouri. My wife, Sheen, works as a Principle Systems Engineer for Rockwell Collins and has the luxury of being able to telecommute. We have two adult children, Travis, who holds a Math degree from Cal Berkeley and Stephanie, who just received her PhD from University of Texas. My wife's family has made The Wren their summer getaway since 2005 and have five timeshare weeks.

I have witnessed the great work the current Board and Management have put into the Maintenance, Improvements, and Day to Day operations of The Wren and would like to assist in their efforts to insure the growth of the development.

My education background is that I hold a BS in Computer Engineering from Iowa State University. I have used my education and entrepreneurial skills to create several successful businesses. The key to my business success is that I find areas that can be improved upon and create solutions to solve these situations.

Current Business Experience:

Owner of Dock Realty, Inc, founded in 2002, <http://dockrealty.com>
